9/8/98 - p.c. client - hand hurts if turned certain ways.
Wakes him up at night on occasion. States
he is having anxiety attacks because he
will go to use his lt hand & can't use it
like he used to. Asked client how
frequently this occurs. He isn't sure - maybe
3 or 4 x a month. Suggested client keep a
diary of episodes of pain, anxiety attacks
or anything else that seems unusual.
Asked how often. Advised then he could
inform MD of how often - when, etc. S/s
occur. Client attending P.T. 3x/wk. States he
is not taking any pain meds.

resched'd to 4:30 pm + that his attorney
will be there.

10/2/98

pc (VM) - Adj + left details. msg re: chg of appt time + that pt says his attorney's will be there. ReB if any instructions needed

← Attended pt appt. Dr Braun - After a LONG wait period ~~pt arrived~~ (Dr was running late for 4:30 appt) Dr came out at 5:00 PM + asked where pt was. Kelly told Dr that pt was calling a few minutes before on Dr's appt were running + then said pt is on his way! When I asked Dr if he planned to P+S pt today he said he did. Continued to wait for pt + after 1 hr wait time, pt arrived. OT took measurements 15° motion in wrist. (30° (-15° up + down) ^{pronation +} supination) 65° (2/3 of normal). Dr said P+S - Future med - says pt may need wrist fusion (because of pain in wrist). Dr revision of distal ulna. Grip strength (L) 20/120. Pain in scaphoid area + Dr says pt may not work there. Dr said that if wrist fusion was done earlier, pt would have developed ^{False diagnosis} ~~pseudarthrosis~~ ^{Joint affection due to degeneration} at the base of the 4th metacarpal. Any op to relieve pain or improve function is part of future med. (no more PT/OT). (OC - Q1) w light gripping - Loss of 50% or more of function for grasping/pushing/pulling. Pt can do computer. ^{SP + Key Board} Pt has feeling in wrist. Lifting no more than 5 lb ~~to~~ actually < 5 lb = Dr visits, ^{deep} meds, splints etc (4 mc).

0/5 - pc from adj's assistant (Jackie) - provided her info re: 10/2 Dr visit + that pt was med Q1 w + P+S.

pc Hand Center (Kelly) + requested Dr's 10/2 status form (placed on hold 40) - says she can't find it + will need to go to Dr Braun. Dr took chart + him | CREST 1/1/00 -

5/18 - pc adj (UM) + left long detailed map re outcome of R visit. PCB goes to decision & told her I will fly to obtain P+S report - R+R'd Dr B's 10/5 Comm. Sheet. Dr Chod P+S date to 10/15 & said he plans to remove pin in 2 days.

- pc Dr B + was told pin removal sched'd for 10/6 at 1:45 P.

- Rev'd PT's prog. report & fax'd it to adj along @ Dr B's 10/5 comm. note.

- pc adj + lme P+S date change + pin removal.

10/15 - pc Dr Braun's office requesting P+S report but was told it is not ready yet.

- pc pt to determine if Pen removal relieved sharp pain in wrist & was told it did "a little bit". Hand feels like it is getting a little bit better. Is able to have a little more movement in joint since the pin was removed. Reminded him that Dr B provided future med prn.

10/16 - Progress Report #35 written

1/2 - pc Dr Braun again requesting the P+S report (10/15) - was told they only have 10/5 comm sheet. Dr saw pt on 10/6 & he rem'd pin + wires + nails. Will speak @ Jennifer (their transcript) @ getting 10/6 report out to me.

1/11 - pc pt - removed pin in office - wrist the same - no change for the better or worse. Signed papers yesterday to settle out of court. Plans to go to college for a couple of years. Says WC no longer applies for him since he settle.

- pc adj (UM) - informed a status in detail.
