Jacksonville, NC 28546
Preferred Method: E-mail
Media: No

Records Requested*

Subject: Public Records Act Request: Urgent Workers' Compensation Evidence (1998 Incident)

To the Public Records Coordinator:

Pursuant to the California Public Records Act (Government Code sections 7920-7931), I am formally requesting a complete copy of the accident investigation file, safety citations, logs, inspector notes, and narrative reports regarding an industrial accident that occurred to me.

Injured Employee Name: Rick Hollifield

Date of Incident: August 28, 1996

Location of Incident: Metropolitan Wastewater Department (MWWD), San Diego, California

Employer Name: Kvaas Construction Company

Description of Incident: A 27-foot fall from a ladder. Improper crane hook lift. The accident involved a blind crane drop, the removal of a safety strap, and a lack of radio communication. This workplace safety and health inspection was handled by the Division of Occupational Safety and Health (Cal/OSHA).
Please include any documents claiming Kvaas was negligent in any way and what percentage they were found to be at fault. The violations & fines for accident.

Please provide all available records. If parts of this file have been archived offsite due to the 1998 date, please initiate an archive pull as these records are critical for an active legal action before the WCAB. Please deliver all responsive documents electronically to my email address below.

Respectfully
Rick Hollifield
